**Subscription Editions  
2008**

2008 marks the **second year** of **Rick Myers'** art subscription project, presenting four new editions created exclusively to be sent to subscribers by post.

This year's editions are specially printed, hand cut and sewn artist zines, with individually detailed additions & inserts. They introduce new threads running through a larger body of work, intended as excerpts from a forthcoming exhibition; presenting the work in its raw state, in advance to subscribers, to offer a unique and direct insight.

Subscribers will be posted each of the four editions at intervals throughout 2008:

*SE#5 - Expedition Into Page (Prologue)* - with signed original print

*SE#6 - Untitled Document + Residue* - with residue taken from removal of original document

*SE#7 - Decompositions* - with oversized print

*SE#8 - X's & Static / Words Organised into a Skeleton of The Universe* - with paper mobile

There is also a **deluxe version** (SE2008X) available for the first time this year. In addition to the four pieces, subscribers also receive a **glass display box** which houses and displays the work, it comes in a hand detailed slip case including an **original graphite & pencil drawing** on BFK Rives paper.

The cost for the standard version (to receive the four editions) is £25.

The cost for the deluxe version (to receive the four editions, display box with slip case, and original drawing) is £60.

Both prices include postage and packing to any destination worldwide, with an advance subscription offer for the series the following year.
